RELIEVA PF
Xtra
Lubricant Eye Drops

INSTANT COMFORT, LASTING DRY EYE RELIEF^{2†§}

Symptom Relief As Early As 30 Seconds^{2‡}

Patient Experience Study:
Change in CSS Total Scores from Baseline

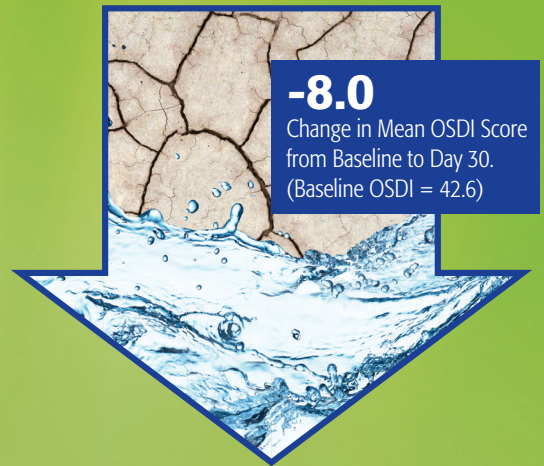

^{2‡}Total Current Symptom Scores (CSS) were based on visual analogue scales for participants to think about how their eyes were feeling "right now." Higher scores on the CSS (i.e., closer to 100) indicate greater symptoms. Patient administered 1-2 drops in each eye of Refresh® Relieva® PF Xtra prior to assessment.

^{2‡§}Study Design: Single-center, single-armed, open-label descriptive study in patients with dry eyes (n=40).

Reduction in Symptoms Over 30 Days^{2§}

Patient Experience Study:
OSDI Score Over Time

^{2§}Ocular Surface Disease Index is a validated patient-reported outcome tool to measure symptom severity; Lower OSDI scores (i.e., closer to 0) indicate less severe symptoms while higher OSDI scores (i.e., closer to 100) indicate more severe symptoms. Refresh® Relieva® PF Xtra was used at least twice a day but as much as needed for 30 days.

Specially Formulated With All The *Xtras*

CMC

maintains ocular surface moisture and **helps stabilize the tear film**

Glycerin

a natural substance that enters cells and is **high water binding**

HA†

a natural component of the tear film with **intrinsic properties of water retention**

Trehalose†

an **antioxidant with osmoprotective properties** which helps balance the molecules in the tear cells

HydroCell® technology

our proprietary solution that **enables rehydration and protects** the volume of cells on the ocular surface

†Inactive ingredients.

Recommend REFRESH® RELIEVA® PF XTRA to your patients today!
